

2014年

Hayashi T. Gene regulation of provirus HIV-1: Involvement of redox regulation by thioredoxin. *Global Journal of Research Analysis* 2014; 3(12): 1-2. DOI:10.15373/22778160 (査読有り)

Hayashi T. Hirano T, Murata T. Neuronal death signaling pathway: involvement of Rag1 activation. *International Archives of Integrated Medicine* 2014. 1(4) 1-5, December. (査読有り)

Hayashi T. Horiuchi A, Sano K, Hiraoka N, Ichimura T, Ishiko O, Kanai Y, Yaegashi N, Aburatani H, Konishi I. Detection of somatic mutations in Interferon- γ signal molecules in human uterine leiomyosarcoma. *Int'l J of Biological and Pharmaceutical Research* 2015. 6(1) 1-6. (査読有り)

Hayashi T. Horiuchi A, Sano K, Hiraoka N, Ichimura T, Ishiko O, Kanai Y, Yaegashi N, Aburatani H, Konishi I. The detection of somatic mutations in Interferon- γ signal molecules in human uterine leiomyosarcoma. *Sarcoma Research - International* 2014. 1(2) 1-4. (査読有り)

Hirano T, Murata T, **Hayashi T.** Physiological significance of Rag1 in neuronal death, especially optic neuropathy. *FEBS Journal* 2014, Oct 14. doi:10.1111/febs.13109. (査読有り)

Hayashi T. Horiuchi A, Sano K, Hiraoka N, Kasai M, Ichimura T, Nagase S, Ishiko O, Kanai Y, Yaegashi N, Aburatani H, Shiozawa T, Tonegawa S, Konishi I. Molecular approach of leiomyosarcoma: critical function of LMP2 in our understanding of the pathobiology. *Current Research in Cancer* 2014. 8: 29-36. (査読有り)

Matsuda M, Ichimura T, Kasai M, Murakami M, Kawamura N, **Hayashi T.** and Sumi T. Preoperative Diagnosis of Usual Leiomyoma, Atypical Leiomyoma, and Leiomyosarcoma. *Sarcoma*. 2014. Vol.2014. Article ID 498682
<http://dx.doi.org/10.1155/2014/498682>. (査読有り)

Hayashi T. Horiuchi A, Sano K, Hiraoka N, Ichimura T, Ishiko O, Kanai Y, Yaegashi N, Shiozawa T, Aburatani H, Ikuo Konishi I. The identification of somatic mutations in Interferon- γ signaling molecules in human uterine leiomyosarcoma. *Jokull Journal* 2014: 64(10) 1-20. (査読有り)

Hayashi T. Somatic mutations in Interferon- γ signaling molecules in human uterine leiomyosarcoma. *International Journal of Scientific Research* 2014: 3(10): 444-445. DOI : 10.15373/22778179 (査読有り)

Hayashi T. Horiuchi A, Sano K, Hiraoka N, Ichimura T, Ishiko O, Kanai Y, Yaegashi N, Shiozawa T, Aburatani H, Tonegawa S, and Konishi I. A diagnostic biomarker: differential expression of LMP2/b1i in human uterine neoplasms. *Journal of Clinical & Experimental Oncology* 2014: 3(3): 1-3. <http://dx.doi.org/10.4172/2324-9110.1000128> (査読有り)

Hayashi T. Horiuchi A, Sano K, Hiraoka N, Ichimura T, Sudo T, Ishiko O, Yaegashi N, Aburatani H, Konishi I. Potential diagnostic biomarkers: LMP2/ β 1i and Cyclin B1 differential expression in human uterine mesenchymal tumors. *TUMORI* 2014: 100: 509-516. (査読有り)

Hayashi T. Horiuchi A, Aburatani H, Ishiko O, Yaegashi N, Kanai Y, Zharhary D, Shiozawa T, Tonegawa S, Konishi I. Potential biomarker for human uterine leiomyosarcoma. *Journal of Clinical Medicine Research* 2014: 6(5): 392-394 (査読有り)

Hayashi T. The HIV biology of pro-viral HIV gene expression for Diagnosis and treatment. *Paripex Indian Journal of Research* 2014: 2(8): 208-209. (査読有り)

Hayashi T. Preventive effect of ascorbic acid against Tat-dependent HIV-1 RNA elongation. *Jokull Journal* 2014: 64(4): 1-16. (査読有り)

Hayashi T. Horiuchi A, Aburatani H, Ishiko O, Yaegashi N, Kanai Y, Zharhary D, Tonegawa S, Konishi I. Identification of novel biomarker for human uterine leiomyosarcoma. *J Hematology and Oncology* 2014. 2014: 1(1): 1-6. (査読有り)
DOI: 10.14302/issn.2372-6601.jhor-13-379

Hayashi T. Murata T. Development of spontaneous optic neuropathy in NF- κ Bp50-deficient mice. *Global Journal of Research Analysis* 2014: 3(4): 173-174. (査読有り)

Hayashi T, Pancreatic β -cells regeneration during the reversal of autoimmune diabetes in NOD mice. *INDIAN JOURNAL OF APPLIED RESEARCH* 2014; 4(3): 387-288. (査読有り)

Hayashi T, Horiuchi A, Sano K, Gal Gur G, Aburatani H, Ishiko O, Yaegashi N, Kanai Y, Zharhary D, Tonegawa S, Konishi I. LMP2/ β 1i as a potential biomarker of human uterine mesenchymal tumors when combined with the candidate molecules, cyclin E and calponin h1. *J Mol Pathophysiol* 2014; 3(1):1-6. (査読有り)

Hayashi T, Horiuchi A, Aburatani H, Ishiko O, Yaegashi N, Kanai Y, Zharhary D, Tonegawa S, Konishi I. Proteasome LMP2/ β 1i subunit as biomarker for human uterine leiomyosarcoma. *International Journal of Cancer Therapy and Oncology* 2014; 2(1). 1-4. (査読有り)
