

2017年

1. **Hayashi T***. Physiological significance of signal pathway in uterine sarcomagenesis. *EC Gynecology*. 2018 7(2): 33-35. (査読有り) (**Hayashi T.** corresponding author).
 2. **Hayashi T***, Konishi I. Epigenetic changes of pro-oncogenic genes during ovarian cancer progression. *Women's Health, Issues and Care*. 2017, 1(1): 1-3. (査読有り) (**Hayashi T.** corresponding author).
 3. **Hayashi T***, Ichimura T, Mari Kasai M, Gur G, Yaish P, Zharhary D, Kanai Y, Tonegawa S, Yaegashi N, Konishi I. Pathobiology of human uterine leiomyosarcoma for development of novel diagnosis and clinical therapy. *Intl. Arch. Endocrinol. Clin. Res.* 2017, 3(1): 1-4 (査読有り) (**Hayashi T.** corresponding author).
 4. **Hayashi T***, Sano K, Ichimura T, Kawano M, Kanai Y, Shiozawa T, Yaegashi N, Konishi, I. Molecular Pathology and Novel Therapy for Uterine Sarcomas. *Precision Medicine in Gynecology and Obstetrics*. Editor: Ikuro Konishi. Springer. 2017, 137-150. First Online: 14 June 2017. (査読有り) (**Hayashi T.** corresponding author).
 5. **Hayashi T***, Ichimura T, Kasai M, Ando H, Tonegawa S, Kanai Y, Zharhary D, Aburatani H, Yaegashi N, Konishi I. The study of somatic mutations in human uterine leiomyosarcoma. *Cancer Studies and Therapeutics*. 2017, 2(3): 5-9, 2017. (査読有り) (**Hayashi T.** corresponding author).
 6. **Hayashi T***, Ichimura T, Kasai M, Kanai Y, Ando H, Ida K, Yaegashi N, Tonegawa S, Konishi I. Biological analyses for characterization of the uterine sarcoma using mouse model. *Journal of Gynecological Research and Obstetrics*. 2017, 3(3), 61-63. (査読有り) (**Hayashi T.** corresponding author).
 7. **Hayashi T***, Ichimura T, Kasai M, Ando H, Ida K, Kawano M, Shiozawa T, Tonegawa S, Kanain Y, Aburatani H, Yaegashi N, Konishi I. The somatic mutations in Interferon- γ signal molecules in human uterine leiomyosarcoma. *Biomedical Genetics and Genomics*. 2017, 2(1), 1-5. (査読有り) (**Hayashi T.** corresponding author).
 8. **Hayashi T***, Ichimura T, Kasai M, Sano K, Zharhary D, Shiozawa T, Yaegashi N, Konishi I. Characterization of leiomyomatoid angiomatous neuroendocrine tumour (LANT)-like tumour in the myometrium with histopathological examination. *Anticancer Research*. 2017, 36(10), 4997-5007. (査読有り) (**Hayashi T.** corresponding author).
 9. **Hayashi T***, Kawano M, Sano K, Ichimura T, Gur G, Yaish P, Zharhary D, Kanai Y, Tonegawa S, Shiozawa T, Yaegashi N, Konishi I. A novel diagnostic biomarker, PSMB9, for human uterine leiomyosarcoma. *Chinese Clinical Oncology*. 2017, 6(2), 22-24. (査読有り) (**Hayashi T.** corresponding author).
